STEPS at Liberty Center
Substance Abuse Treatment, Education & Prevention Services

Dear Friend,

Most of us have a friend or relative with addiction disease. It hurts all of us yet we don't like to talk about it. In our community we have had help for many years. STEPS achieves notable success in treating this terrible disease and educating our community to help prevent its spread and lessen the misunderstanding surrounding it.

THE RISERS mission is to reduce the stigma that surrounds the disease. The stigma inhibits sufferers from seeking help, stops some from offering help and makes it difficult for those working to help people recover.

THE RISERS work to ensure that prevention, treatment and recovery services remain well funded and accessible. It is a cause that will benefit the entire community as well as the men of Noble House, the women of Beacon House and all the outpatient clients served by STEPS.

Thank you.

The Beacon House, the residential home for women in treatment

The Noble House, the home of the Pathway House program for men in treatment

HISTORY OF ORGANIZATION

Founded in 1974, STEPS (originally Wayne County Alcoholism Services) has grown from a one-person operation to an organization offering a full continuum of substance abuse, prevention and treatment services.

2005—STEPS was one of 13 addiction providers chosen nationally to participate in the Robert Woods Johnson Network for the Improvement of Addiction Treatment (NIATx). Since that time, over 1000 providers nationwide have joined this network which has provided leadership with improved treatment outcomes.

2006—STEPS at Liberty Center and Every Woman's House completed the process of becoming nationally certified by The Council on Accreditation. This certification recognizes the ability to provide quality services to clients while meeting the highest level of national standards.

2006—Community Anti-Drug Coalitions of America selected the CIRCLE Coalition as one of two "coalitions of excellence" nationally for outstanding outcomes illustrating a reduction in alcohol, tobacco and other drugs.

2008—Renovated an historic Beall Avenue home to be the house for the Pathway program—a men's residential treatment program. The home was named Noble House.

2009—Provided treatment services to over 900 individuals and prevention programming to an additional 5,000 citizens in Wayne & Holmes Counties.

2012— Treatment services provided to 1,050 clients. Began offering Medication Assisted Treatment services.
